- Rules & Regulations Regarding Vehicle Parking**
- Each Unit may not maintain more than two (2) vehicles upon the Condominium Premises unless the Board of Directors specifically approves otherwise in writing.
  - Each Unit is afforded two exclusive parking spaces - one within their garage and other directly behind their garage. A resident must not park their car behind the garage of any other unit.
  - Parking in front of the buildings is for visitor use only, and is designated by parking stripes. Visitor parking is also available along the Paint Creek Trail in the commercial lot.
  - Owner/Tenant vehicles should not be routinely parked in the visitor parking areas. While owner/tenant parking is front of buildings for short periods of time is convenient, units with more than one vehicle should never park both vehicles in visitor areas, as these areas are limited and doing so is an extreme inconvenience for neighbors and their guests.
