

KINGS COVE

KING'S COVE ASSOCIATION SCREEN DOOR POLICY

The installation or replacement of screen/glass doors requires a modification request, and approval from the Property Manager. (Modification Request Forms may be obtained from the On-Site Office located in the Clubhouse).

Doors must be of identical design, color, and style as the existing doors located on the same facing side of the building. Doors must include a hydraulic opener/closer, and a spring-activated chain and lock. Additionally, the door must be constructed of heavy gauge aluminum and include tempered safety glass.

The replacement of a glass or screen door, or any repairs to the same, is the responsibility of the co-owner.
